The present independent claims 1 and 13 are not generic to the newly submitted claims. For example, claims 1 and 25 where the transmission housing, as claimed in claim 25, is not rotatable, as required in claim 1; and accordingly, they are conflicting one another. Likewise, claims 13 and 30, where the step (1), determining a wheation, as claimed in claim 30, is in conflict with steps 2 and 3 of claim 13. It appears that applicant mixes one embodiment with another, which is not adequately disclosed in the present specification.
